

## Awarding Body Endorsements

When VQManager was first launched it was one of the first e-portfolios in the market and as such we went through a very robust quality assurance process with some of the largest Awarding Body organisations to ensure that our product was fit for purpose. Hence we have formal endorsement from some and display their logos on our website. Today there are hundreds of Awarding Bodies and many qualifications from these additional bodies are being used every day by our existing clients on VQManager.

We do recommend that our clients contact their EV and Awarding Body directly and advise them that VQManager is the system they intend to use to track and manage their learners. If they have any immediate questions please do ask contact use so that we can address these issues at the outset. If they don't already have any experience of using our e-portfolio please use the EV area within this "Support" area of our website and download the EV guidance document.
