

VQManager Dashboard

A new Dashboard tab is now available on the Home page for Assessor, IQA/ IV, Line Manager and Centre Administrator giving customisable and downloadable information relevant to each role.

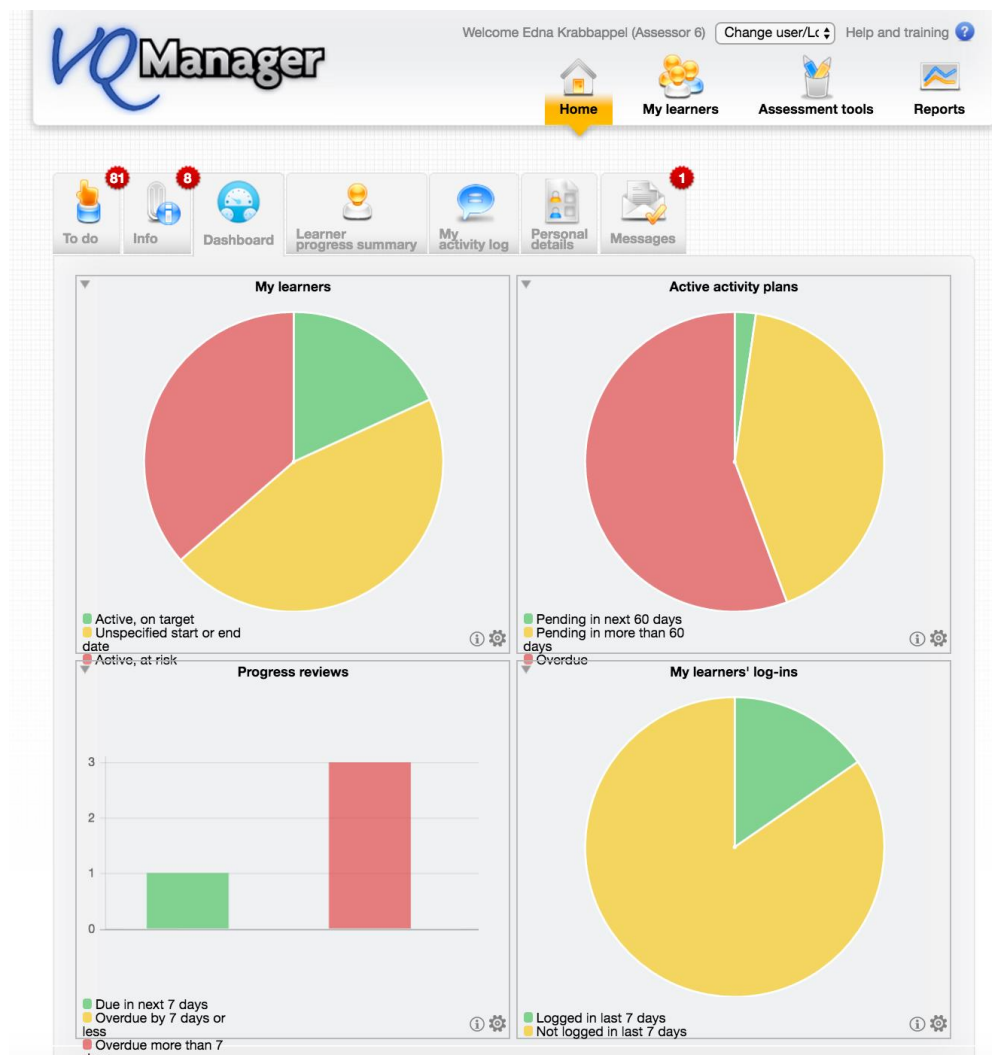

Assessor dashboard

Selecting the new Dashboard Tab will bring up a selection of graphs which include My Learners, Active Activity Plans- (also known as Assessment Plans or Action Plans – these are not Activity Logs) Progress Reviews, My Learner Log-ins.

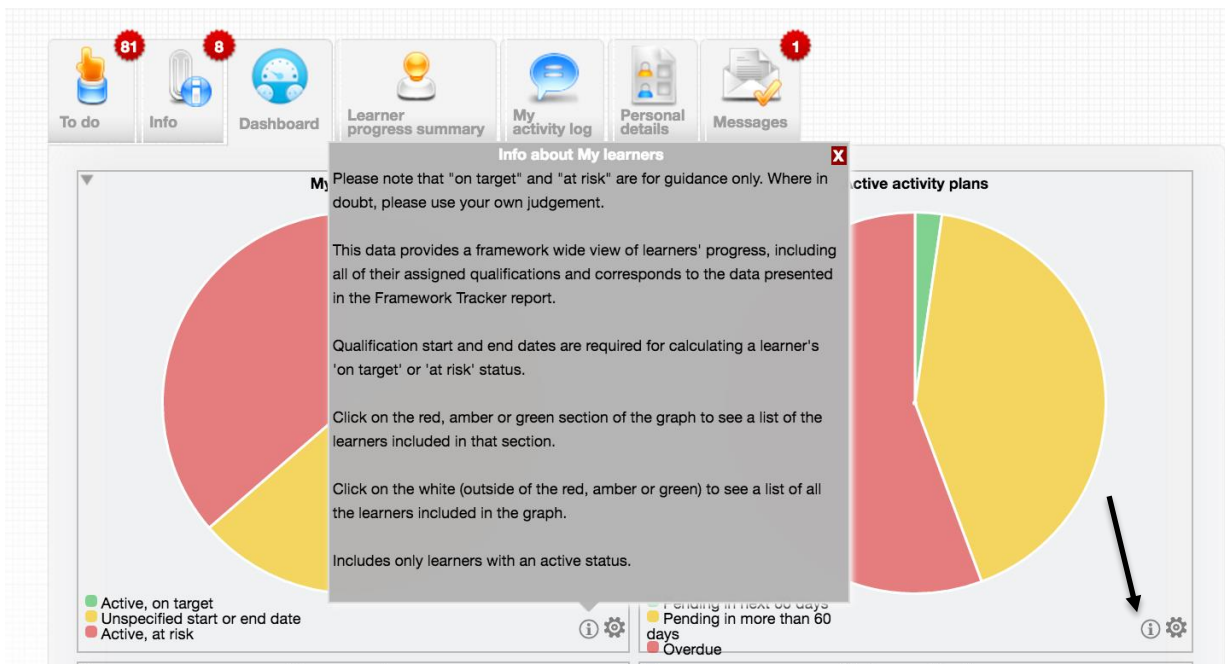

Please note that the information provided only includes learners with an 'active' status.

The page layout can be configured to your individual preference and importance of the information provided (See Settings button below). You also have the option to hide a graph from view by clicking on the downward arrow in the top left corner of each graph box. This can be reversed at any time.

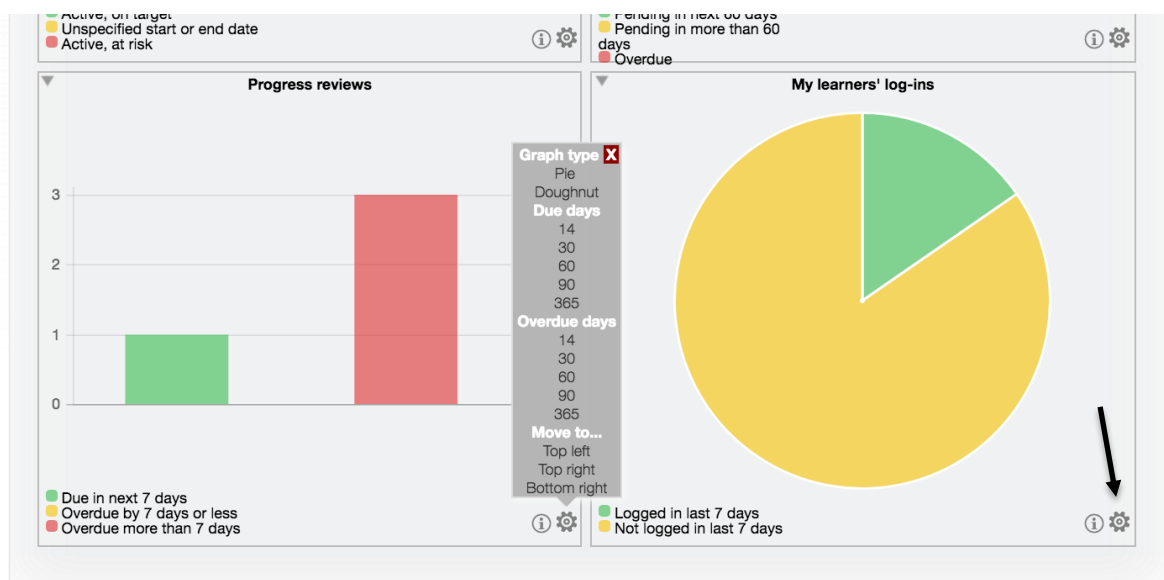

At the bottom right hand corner of each graph box you will find Information and Settings buttons.

 By clicking on the information icon a pop-up will appear with useful information about that graph.

 By selecting the Settings icon you will be presented with various options to customise your graph, eg: Type of Graph, Due days, Pending days, and the option to reconfigure the dashboard layout to suit your needs.

Hovering over the Red, Amber or Green areas of each graph will show a pop up displaying the number of your learners in that group. This example from My Learners shows 2 learners in the green (Active, On Target) group.

Clicking on an individual coloured area will open a pop-up with a list of learners included in that section. This example shows the two Green - Active, on Target learners from the hover-over above. This table can be further configured by clicking on the tick boxes to hide or show columns.

My learners: Active, on target

IQA/IV dashboard

For the IQA/IV the reports are slightly different, in so much as they show learners for all their assessors.

When you now select the red or green for example it will bring up all the learners for the assessors which that IQA/IV looks after.

There is also another report available for the IQA – “Total learners per assessor”.

It displays the total number of learners per assessor with a visual of the number of learners Active on target (green), Unspecified start or end date (amber) and At risk (red).

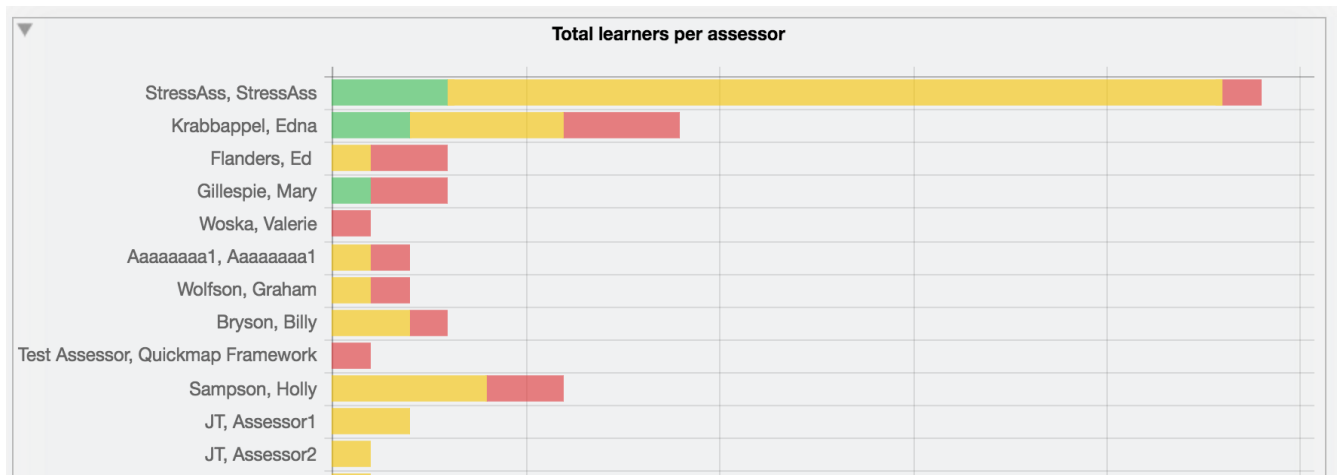

Line Manager/Other System user dashboard

In addition to the IQA/IV reports above, the line manager is able to see the “My associates’ log-ins” too

Centre Admin dashboard

In the same way the IQA can see assessor caseload, the Centre Admin can also see this. It displays the total number of learners per assessor with a visual of the number of learners Active on target (green), Unspecified start or end date (amber) and At risk (red).

NB: the percentage calculations are based on the overall completion of all qualifications assigned to the learner.
