

Data not in date order.

Users can re-order the entries in tables throughout VQManager by clicking on the headings. The system remembers the choice of ordering for each table, so if it gets changed, the user will need to click to change it back.

▼ Previous rationales

Date logged	Target date	Date completed	Summary title	Logged by	Feed back	Attach-ments	
13/08/2014	13/08/2015		rational for next year	Stuart, John			Edit
05/02/2018	26/02/2018		Ken's rationale by Ingrid	fire, ingrid			Edit
