# VQManager Enhancements February 2016

Remove qual from IQA/IV Info tab when it's been signed off

This update relates to the Info tab for IQAs. Previously, in the table 'Qualifications signed off in the last 30 days', items remained there even when the qualification was signed off by the IQA (unlike the Units signed off table, where when signed off, the units disappear). The qualifications signed off by an IQA will now disappear from the list when signed off.

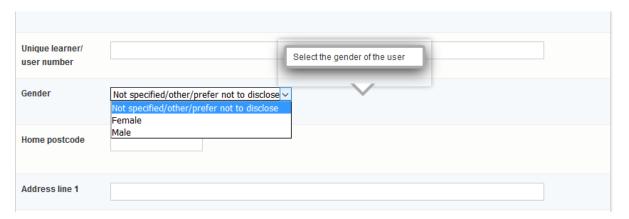

Improving pop-up message when deleting evidence

The message popup which appears when opting to delete evidence has now been made more robust to ensure the user is aware that the deletion is a permanent action. It now reads as follows:

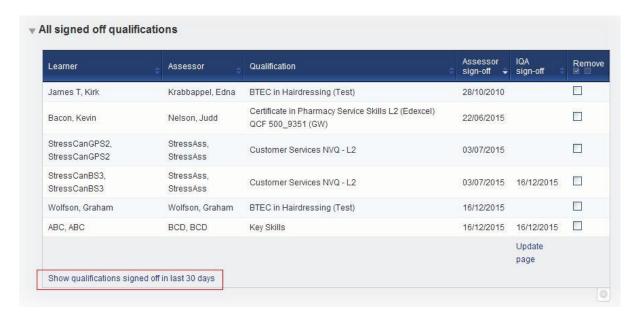

Changing 'sex' to 'gender' in Personal Details

We have changed the terminology in the Centre Admin user profile area.

## Add IQA/IV sign off column to Centre Admin qual sign off table

We have added an additional column in the "qualifications signed off" table for the Centre Admin to include IQA sign off in addition to the Assessor sign off.

Items should appear in the table at Assessor sign off, as now, but the IQA sign off date will pull through if and when that is added.

All signed off qualifications

Add 'trainee assessor' label in User table for Centre Admin

In the User table, it wasn't very easy to see who was a trainee assessor without opening individual user profiles. This will be most apparent in the 'linked to' column, so the Centre Admin can easily see that they have assigned a trainee and a qualified to the learner where that's appropriate.

Assessor, Training 704	Assessor	Martin, Lesley (30)	18/06/2008	Active ⌄	○
Flanders, Rod 32	Candidate	Assessor, Training (704 - trainee) Krabbappel, Edna (31)	07/03/2007	Active ⌄	○
Jennings, Patrick 922	Candidate	Vivienne, Eastwood (923)	21/07/2011	Active ⌄	○

Move the 'write new report' button to the top of the IQA feedback reports page

After a while, the list of feedback reports can get very long and the user has to scroll a long way to find the 'write new' button. This button has now been duplicated so it can be found both at the bottom and the top of the table of reports, along with the 'edit' button.

When evidence is returned by an IQA/IV, create comments box for assessor to write to IQA/IV

Previously in the Log Evidence page when the evidence had been returned by the IQA for additional work by the assessor, there was nowhere for the assessor to write comments directly back to the IQA so that the comments were not visible to the learner. This is a new box in addition to the assessor comments box that the learner can see.

Allow sorting of File Library

You are now able to sort the documents in the File Library table in the same way other tables' work, by clicking on the headings.
