

Password strength meter, and force users to change previously set weak passwords.

All users are requested to set a strong password. They will not be able to save their profile without complying with the password requirements below.

A screenshot of a web form for setting a new password. The form has two input fields: "New password" and "Confirm new password". The "New password" field is highlighted with a red asterisk. A tooltip is displayed over the "Confirm new password" field, listing four requirements: "At least one letter", "At least one number", "At least 8 characters", and "Different from user name". Each requirement is preceded by a green checkmark. Below the input fields, there is a "Cancel new password" link and a "Save new password" button.

For more information regarding setting strong passwords, please follow this link.
